

Program Overview

The primary objective of the Rainier Christian Childcare Center is to provide a Christ like environment. Our center is safe for children and a place they feel safe. We provide a nurturing preschool, extended daily care program and a before/after school program entitled Kaleidoscope Kids (KK) for children who attend our elementary school. Preschool classes use a well-planned curriculum with age appropriate activities divided into themes. Our goal is to provide stimulating activities and active learning in the areas of: Bible, numbers, language, and self-expression through art, music, dramatic play, sensory perception and the use of manipulatives for math concepts. We celebrate Christmas, Thanksgiving, Easter and other national holidays through out the year as well as providing opportunities for multicultural experiences.
